Games to play with the Origami Frog

Pond Jump

Draw different sized circles. Start your frogs in the first circle try to jump into the next one.

If they hit it they progress to that circle if they miss it they stay in the first one hoping for better luck in the next turn.

Make it more challenging by adding more circles and/or making each circle closer or further apart from the next one!

Obstacle Jump

Make obstacles out of drinking straws (or twigs, cardboard...) and race origami frogs – they advance to the next one only if they jump over the obstacle.

Make it more challenging by making the obstacle higher or further away!

Distance Jump

Who will jump the furthest?

Mark a line on the ground with chalk to see how far each frog goes!

Hit the Target

Draw a circle target. Place the frogs outside the circle and jump.

The closer to the centre they jump the more points!

Make it more challenging by adding more circles and making the circles different sizes!
